NZ2023 38th FIAP International Stamp Exhibition

JURY REPORT

After the COVID-enforced cancellation of the international component of NZ2020, it is a pleasure to have our philatelic friends from Asia and the Middle East and South Africa visit New Zealand.

The Jury of NZ2023 has completed all the judging and was very pleased with the high standard of exhibits at the show. Just over 220 exhibits in 1076 frames were judged, resulting in 7 Large Gold and 31 Gold medals being awarded. Several exhibits were transferred to a different exhibit class to ensure they received a higher award.

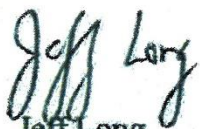

There were many first-time one frame and novice exhibitors who have now joined the ranks of the more experienced exhibitors. Our congratulations to them all.

The exhibition appreciated the input of six Apprentice Jurors, two other Jurors seeking cross-accreditation to other exhibit classes, and an apprentice team leader. Members of the Presidium were very pleased with the application and knowledge of those seeking to advance up the judging scale.

Making the Jury task a little bit more complicated were a number of exhibits delayed arrivals, this was largely due to travel complications, as we recommend no action be taken with regards to these 5 exhibitors. However, this did mean that many New Zealanders with exhibits not actually entered in the exhibition were able to display their material, and although not judged I am sure anyone who viewed the material would have been impressed.

Finally, we wish to thank those involved with running an exhibition such as NZ2023:

- the exhibitors and Commissioners who provided the material to judge.
- the sponsors, especially NZ POST, and dealers and postal administrations who had stands.
- members of the Organising Committee.
- and especially the large number of volunteers.

EXPERT GROUP REPORT

The Expert Group of NZ 2023 made a specific review of exhibits which had been queried at previous FIP and FIAP exhibitions where certificates were requested. Out of 20 items identified, 2 had certificates provided, and 10 items were not exhibited. Eight items were in exhibits which were absent.

Members of the Group inspected as many exhibits as possible in each competitive class. Dubious items reported by judging teams were checked.

As a result, a total of 37 new items were removed from the frames for closer examination and the recommendations of the Expert Group were as follow:

No action required	4 items
Has to be Certified	24 items
Descriptions to be improved	9 items

The reports of the items examined together with colour illustrations in duplicate were handed over personally to the National Commissioners concerned for onward transmission to their respective exhibitors and National Federations. This would ensure that the decision had been properly conveyed. Copies of the same documents in colour were retained for FIAP records.

The Expert Group, consisting of Mr Geoffrey Kellow and Mr Jenwit Apichainunt, and with input from Mr Tay Peng Hian, would like to thank the judging teams and the National Commissioners for their co-operation as well as the Organizing Committee for the facilities for the smooth working of our group.

The New Zealand Society of Great Britain

The Society holds regular meetings in London and around the UK regions where members have access to an extensive library and a circulating exchange packet.

However there are benefits to membership wherever you live. Our journal 'The Kiwi' is published six times a year, in full colour, and is available in paper or electronic format. We hold an annual auction and our web site hosts past issues of the journal, articles and a growing archive of reference material of interest to collectors of New Zealand stamps and postal history, together with links to other relevant websites.

For further information regarding the Society check out our website: www.nzsgb.org.uk or email: nzsgbmembership@gmail.com
